

innovative blinds for modern windows

A fully integrated blind system for Venetian, Pleated and Cellular window blinds

Venetian, Pleated and Cellular blinds

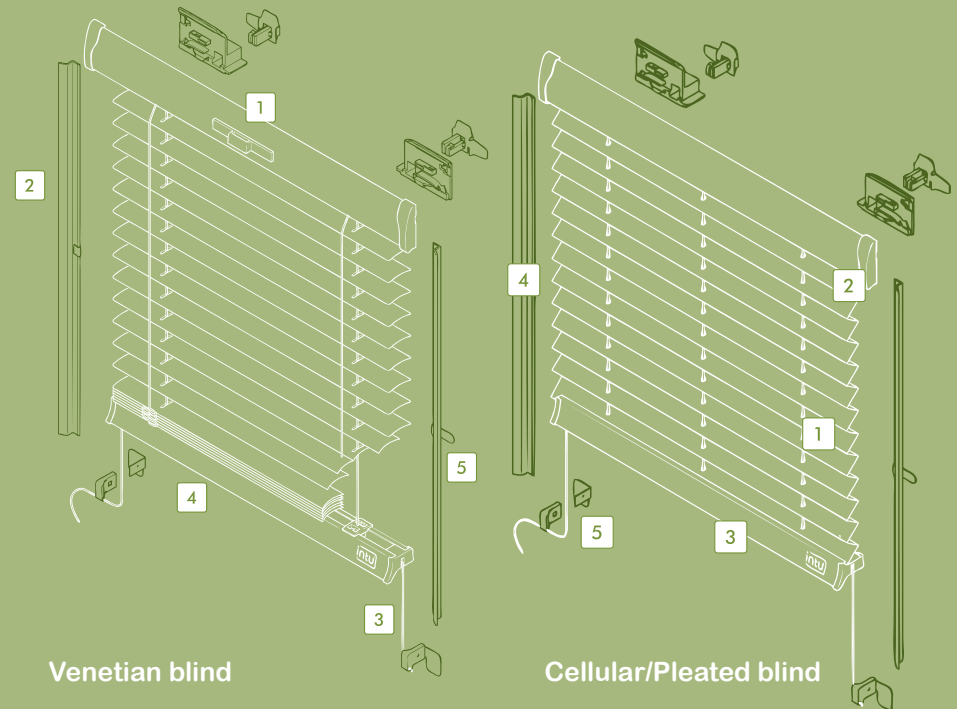

Intu blinds are ideal for conservatories, glazed doors and tilt and turn windows. They fit neatly into the window bead so you can operate your window or door handles easily and light gaps are minimised, giving you exceptional control of solar heat and light.

A unique tension system prevents the blind from rattling against the glass when you open your window or door, and allows up to 15 degrees of tilt. To raise or lower your blind, simply move the bottomrail up or down to any position.

NEW

The newly developed "Click to Fit" system means that blinds now click straight onto the brackets without the need for locking screws, making INTU blinds even faster and easier to install.

Available as Venetian, Pleated and Cellular blinds, you can choose from a wide variety of colour options in each.

Venetian blind

- 1 Top control
- 2 Blind fits neatly into the window bead
- 3 Tension system to secure blind in place
- 4 Raise and lower blind
- 5 Slim profile fascia

Cellular/Pleated blind

- 1 Pleated/Cellular Fabric
- 2 Tension Cord
- 3 Raise and lower blind
- 4 Side Extrusion
- 5 Tension bracket set

innovative blinds for modern windows

Your home is a reflection of you, so we know you want to dress your windows with style whilst gaining maximum shading from the sun. You also want to open and close your windows and doors without damaging your blinds. Intu blinds complement your windows in both design and function, making them the intelligent choice for today's homes.

intu blinds

CELLULAR Pleated Blinds

multizone

perfect for conservatories

no holes, no screws, just style

intu blinds

Designed to fully integrate with all modern windows including tilt and turn and half glazed doors.

Unique design fits neatly into the frame of your windows and doors.

'Click To Fit' system blinds push into the brackets without using locking screws.

The patented no drill bracket system means that blinds can be clipped in place in a couple of minutes.

Easy to operate, simply raise and lower the blind by hand.

Neat and simple control options eliminate the need for free-hanging cord loops, making it one of the safest blinds available.

Choice of Venetian slat, Pleated and Cellular fabric, in an extensive range of colours and finishes.

intu flexible solutions

Intu provides a range of installation options to fit most sizes of modern windows including larger windows and longer drops. Your retailer can advise you on the best solution for your home or office.

Cellular is a unique honeycomb fabric that gives you superior insulation with a modern sleek look.

Creates a beautifully soft diffused light in the room.

Unique construction means that there are no visible holes in the fabric giving a smooth modern look.

Each "honeycomb cell" in the fabric traps air, keeping your room cooler in summer and warmer in winter.

Light but extremely strong structure that holds its shape and always looks great.

No need for cord loops, making it especially safe for children.

Ideal for all modern windows including tilt and turn.

Various duo-tone colour options are available, including Blockout.

Blockout versions are available, which very effectively keep light out and are especially suitable for children's bedrooms.

multizone

Two adjustable headrails allow for the blind to be positioned multi-directionally, letting light in but still maintaining privacy.

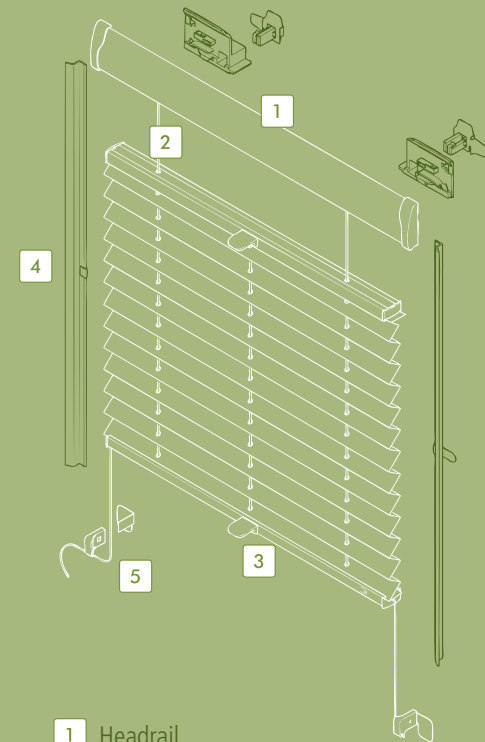

Multizone is a feature for any Intu Pleated or Cellular product, providing limitless options for height control and privacy.

The innovative use of two adjustable rails allows the blind to be moved from the top down as well as from the bottom upwards.

The blind can be set at the exact position you require, to provide the shade that you want whilst still allowing light into the room.

Especially suitable for providing privacy in ground floor and basement flats, and shade for computer screens.

Available on all Intu Pleated and Cellular products and ideal for homes, conservatories and offices.

- 1 Headrail
- 2 Tension cord
- 3 Handle attachment
- 4 Side extrusion
- 5 Fixing bracket set

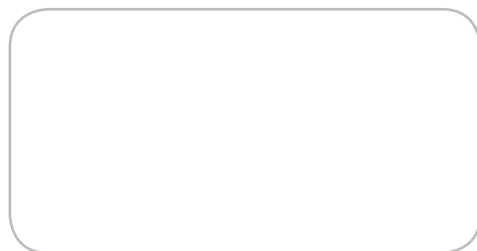

style with peace of mind

Safety in Mind encourages the use of simple features to help make window blinds safer, particularly for families with young children or pets, and the elderly.

Intu's neat and simple control options eliminate unnecessary free hanging cord loops, making them among the safest blinds you can buy.

For more information on the safety features available on any of our blinds, please call 0141 814 3500 to order a Safety In Mind brochure or go to www.eclipse-blinds.co.uk.
